

G Data **AntiVirus** 2013

Comprehensive protection against viruses, Trojans and other malware.

G Data AntiVirus 2013 offers the best possible instant protection against viruses, Trojans and other malware using a modern, intelligent combination of two anti-virus scan engines, cloud technology and system monitoring.

The protection is easily configured, runs in the background and doesn't slow your system down.

- | | |
|--|--|
|  Instant protection when surfing: G Data Web Cloud blocks dangerous websites |  Optimal virus detection using a combination of two virus scanning engines |
|  Instant protection when mailing: G Data Mail Cloud blocks virus outbreaks immediately |  Light on resources due to fingerprinting and idle scan running when you take a break |
|  Instant protection for Online-Banking: BankGuard protects against dangerous Banking-Trojans |  Hourly updates protect you from new threats |
|  Instant protection through behaviour checking: recognizes suspicious behaviour of new viruses |  Emergency-DVD for cleaning already infected systems |
| |  Including AntiVirus for Android™ smartphones. |

Contains a **12 month license** including hourly virus signature updates, software updates and version upgrades.
