

# G Data TotalProtection 2013

## Complete solution for optimal Internet security and the protection of your data.

G Data TotalProtection 2013 is a new complete solution for your all-round protection. It offers the best possible protection against viruses, hackers, spam and all Internet threats by using modern cutting-edge technology. Additionally, Backup and Datasafe protect your personal data against loss or theft. Security-Tuning improves the security of your browser and operating system.

The protection is easily configured, runs in the background and doesn't slow your system down.

-  **Instant protection when surfing:** G Data Web Cloud blocks dangerous websites
-  **Instant protection when mailing:** G Data Mail Cloud blocks virus outbreaks immediately
-  **Instant protection for Online-Banking:** BankGuard protects against dangerous Banking-Trojans
-  **Instant protection through behaviour checking:** recognizes suspicious behaviour of new viruses
-  **Optimal virus detection** using a combination of two virus scanning engines
-  **Light on resources** due to fingerprinting and idle scan running when you take a break
-  **Backup** automatically saves your personal data or complete images
-  **Datasafe** for your confidential data e.g. passwords
-  **Protection against hacking:** silent firewall protects without annoying queries
-  **Security-Tuning** improves the security of your operating system and browser etc.
-  Including AntiVirus for **Android™ smartphones.**

Contains a **12 month license** including hourly virus signature updates, software updates and version upgrades.
